- Details : CE100HK is a corporate renewable energy initiative in Hong Kong that intends to bring hundreds of ambitious Enterprises committing to using 100% renewable energy sources for electricity. Led by the leading listing companies in HKEX, the organization commits to support local and global community for using renewable energy.

CE100HK Solar is a green fund sponsored by the HK business community, it will provide funding for 100 selected schools, 100 industrial/commercial buildings, and 100 housing estates to install rooftop power systems, and will donate a sizeable portion of the renewable energy income to the property owner as a green fund for their facility upgrading or green education, and at the same time, assist property owners to apply for green building labels.

Benson Ng and Rocky Lau will brief the details of CE100HK
