Technical Visit on CLP Power Low Carbon Energy Education Centre

The CLP Power Low Carbon Energy Education Centre is the first of its kind in Hong Kong. The education center is located at City University's campus which showcases the importance of low carbon energy in addressing climate change.

The center has 5 themed zones:

- Climate Change and Fuel Choice
- Renewable Energy
- Natural Gas
- Nuclear Power
- Powering the Future

Five themed zones at the center present a thought-provoking, interactive experience covering the generation principles, applications, advantages and limitations of different low carbon energy sources as well as their future development potential.

The technical visit will include 5 themed zones and Low Carbon Living Talk.

Supporting Organization: The Institution of Environmentalists (IEnv)

Asian Institute of Intelligent Buildings

Building Services Operation and Maintenance Executives Society
